

7/1/57

Dear Bill,

Many thanks to you (all) for the copies of WW here today. For the extra care in packing them, too. Lil is putting them on the shelves now and I write this not to forget because I'm into more than I can keep straight and I'm more feeble, so I remember less well.

For example if I did not write to say we could get those ^{book} plates locally and sign and send them to your daughter if she'll be satisfied with Lil's selection. A nearby book store has them.

The second epilogue to Vukoth^{is} is being retyped but I can't remember that the first was! A fine woman who has not worked for me before and is making more mistakes because of it but it is on paper and the corrections are ready for her to pick up and make.

Again, I'll be getting a disk to Bill or Dave or both. Bill has had more to do with that manuscript.

Of these WMs, 15 have already been spoken for. Gerry McKnight is using it for his ¹⁴⁰⁰ class.

Although we have few 0 in WOs, sales have been lower than I can recall. I think largely because there has been no news and because people expect more from the ARRB than they'll get. I've done a book-length ms. on that.

¹
From cooness we suddenly set a heat record. Crazy weather!

Again, many thanks to you all,
